

Public Service Electric and Gas Company  
PSE&G Electric Delivery  
4000 Hadley Road  
South Plainfield, NJ 07080

**PSE&G**  
We make things work for you.

...Melissa

November 2020

Dear Valued Customer:

This letter is to notify you that PSE&G will continue upgrading the electric system in your neighborhood to provide safe, reliable service. Construction crews have been actively working on the PSE&G and public rights of way in Oradell, as well as surrounding communities. **Please note: PSE&G does not expect this project to cause any service interruptions.**

We will install taller, sturdier utility poles and run new electric wires along existing pole lines. We will also create new pole lines along the right of way in some areas.

**PSE&G will be upgrading and replacing utility poles on Kinderkamack Road, between Ridgewood Avenue and Hemlock Drive. Construction began in early November and will continue intermittently through May 2021. Work hours will be 7:00 a.m. and 5:00 p.m., Monday through Friday. Please note, there may also be weekend work, if necessary.**

In advance of the overhead construction activities, we will trim and/or remove trees along the route in compliance with the Board of Public Utilities' Vegetation Management Rules. This may include trees in the public right of way and on private property. If you are the owner of a tree on private property, you will be contacted by our Vegetation Management Department or one of our approved contractors.

Some aspects of this activity may result in unavoidable noise, as well as traffic adjustments. We apologize for any inconvenience this may cause. PSE&G is coordinating with the Oradell Police Department to minimize any inconvenience. Safety is our highest priority. Therefore, it is essential that you and everyone using your property, including children and pets, refrain from going near our construction work zones.

Should you have any questions, please call us at 1-800-901-5035.

Sincerely,

PSE&G Public Affairs Project Team
